The Latest Developments ...

Thanks to a special donation we have purchased an automated radio programming computer system. Currently we are in the process of setting it up which will take some time before it is ready to go to air. Once all our data is loaded onto the computer we will begin the transition to a new way of doing our scheduling and announcing.

We're looking forward to using the new system which will save us many hours each week. We expect you won't notice too much difference to the station's sound, but hopefully we at the station will notice the improvement in efficiency! It is great to see this urgently needed development but meanwhile we are still seeking support to cover the everyday expenses of staying on-air, in particular, the costs incurred at our transmission site. If you appreciate having a Christian radio station in the Riverland, then please consider whether you are able to give to our Transmission Appeal.

Programming News

New show

From Family Life Australia we bring you 'Marriage and Family Life', presented by Eric Skattebo, providing practical advice, inspiration and encouragement on marriage and family life topics - while clearly letting listeners know THE SOURCE of our strength and guidance. You can hear Marriage and Family Life at 10pm on Monday nights.

Retired shows

The Real Estate Round-Up on Wednesday afternoons has concluded due to change of circumstances for presenter Dave Kanizay. We thank him for his contribution to Riverland Life FM programming.

Monday Nite Madness

Andrew Talbot and Nigel Rutherford are taking a break from Monday night's show while Andrew and his wife Justine prepare for an exciting new arrival! We pray God's blessings on this special event - and hope we can coax Andrew and Nigel back to the studio some time in the future!

Other Developments

We are expecting a return of *The Filter*, with Brad Perry from the Riverland Weekly taking over the mike from Rob McLean who has moved on to a new job in Gawler. We thank Rob for his contribution to Riverland Life FM and look forward to hearing from Brad.
